ABOUT MYSELF

I am a student from Dhaka Polytechnic Institute studying Computer Science and Technology (CST) with a passion for programming and technology. I am skilled in Python and continuously improving my software development and problem-solving abilities. I am a quick learner, responsible, and eager to grow as a software developer.

PROJECTS

Travel Agency Web Application | Python, Flask, HTML, Bootstrap, Firebase

Developed a responsive travel agency web application for browsing and managing travel packages. Implemented user registration/login and database-backed user management. Added travel package details, booking-related functionality, and responsive layouts. Designed the interface to provide a simple and user-friendly experience across devices.

Scientific Calculator | Java, Java Swing

Developed a desktop-based scientific calculator using Java Swing. Implemented arithmetic and scientific operations including trigonometric functions, logarithm, square root, power, π , and factorial. Designed an interactive graphical user interface with dedicated buttons for different mathematical operations.

Technical Skills

Programming Language: Python, Java (Basic)

Web Development: HTML, CSS, Node.js, Express.js

Database: MongoDB

Framework: Bootstrap

Tools: GitHub, Figma, VS Code, Pycharm, Apache NetBeans

Experience

No formal professional experience; seeking an internship opportunity.
